Test Steps:

1. Start ColdFusion
2. Log into CF admin
3. Browse to index.cfm
4. Note startup time reported
5. Browse to index.cfm using the application reload flag
6. Note startup time reported
7. Browse to index.cfm using the application reload flag
8. Note startup time reported
9. Shut down ColdFusion

Notes:

- # Controllers - Controllers included in main ModelGlue.xml file from MG application skeleton
- # Extra Controllers - Additional controllers included from external file
- # Event Handlers - Event handlers included in main ModelGlue.xml file from MG application skeleton
- # Extra Event Handlers - Additional event handlers included from external file

* nS = newScaffolding branch, Memo = Memoized branch
